

Fractions Worksheet (version 3)

Karl Kronecker

March 9, 2025

1 Exercises

1. Calculate the sum of $\frac{99}{21} + \frac{10}{23}$
2. Calculate the sum of $\frac{34}{35} + \frac{10}{37}$
3. Calculate the sum of $\frac{42}{7} + \frac{87}{9}$
4. Calculate the sum of $\frac{10}{58} + \frac{54}{60}$

2 Solutions

1. The solution is $\frac{829}{161}$.
2. The solution is $\frac{1608}{1295}$.
3. The solution is $\frac{47}{3}$.
4. The solution is $\frac{311}{290}$.
